CARING FOR NORWEX MICROFIBER

- Wash slightly dirty microfiber cloths with Norwex Dishwashing Liquid under warm running water. Rinse thoroughly, hang to dry or drop into the dryer.
- Laundry microfiber cloths separately or with other lint-free laundry. Dry completely.
- Use Norwex Ultra Power Plus Laundry Detergent for best results.
- For deep, stubborn stains or odors, microfiber can be boiled for 10 minutes to allow fibers to swell and release the debris.
- Between launderings, use our Rubber Brush to remove dirt from Mop Pads and Entry Mat.
- Do not use bleach, fabric softeners or dryer sheets when laundering microfiber as these additives coat the fibers and reduce their ability to clean effectively.
- Do not use microfiber (except Norwex Optic Scarf) on anti-glare surfaces.
